

## Product Specification Sheet

### Targus Laser Wireless Desktop Mouse

Part #: AMW14US

#### Product Description:

The Targus Laser Wireless Desktop Mouse utilizes the latest in laser technology providing 20 times more tracking sensitivity than typical optical mice; the result – greater accuracy and improved use on shiny surfaces. Never have mouse usage interrupted again with the rechargeable batteries and USB charge cable that charges even while in use (no charge cradle required). Convenient wireless freedom enables uncluttered workspaces free from cables. Mouse movements are accurate and precise thanks to highly reliable RF wireless technology. The wireless receiver and charge cable easily insert into an extension port, eliminating the need to reach around your PC. Increase productivity with the convenient pre-programmed buttons that reduce hand and wrist movements from mouse to keyboard. Scroll-up and scroll-down, Alt-Tab (application window switch) and Internet navigation "forward" and "back" buttons provide simple and efficient short cuts for Windows use.

#### Product Features and Specifications:

- **20 Times More Sensitive** – Targus laser technology has 20x more tracking sensitivity than typical optical mice, for greater accuracy and improved use on shiny surfaces
- **Power Management** – Recharge via the USB charge cable; use the mouse during charging to ensure uninterrupted operation (no charge cradle required)
- **Wireless Freedom** – RF wireless technology provides a clean, uncluttered workspace free from cables
- **Convenient Extension Port** – Plug the wireless receiver and charge cable into the extension port, no need to reach around your PC
- **Efficient Pre-programmed Buttons** – Scroll-up, scroll-down, Alt-Tab (application window switch) and Internet navigation "forward" and "back" buttons provide simple and productive short cuts for Windows use
